Sec. 3.01. Special or Temporary Limits.

(a) The Town Roads Foreman, or the Town Board by resolution, may:

(2) Impose special weight limitations on bridges or culverts when such bridge or culvert cannot safely sustain the weights permitted by statute; and

(3) Order the owner or operator of a vehicle to suspend operation on a Town highway if such vehicle is causing or likely to cause injury to the highway or is visibly injuring the permanence thereof or the public investment therein, except when the highway is being used for a Wisconsin Department of Transportation detour or haul route pursuant to Sec. 84.20, Wis Stats.

(b) Exemptions. The following vehicles are exempt from any weight limitation imposed under Sec. 3.01(a)(1):

(2) Any vehicle transporting material pumped from a septic or holding tank if the material needs to be removed within 24 hours of when the owner or operator of the vehicle is notified, if the vehicle travels a route that minimizes travel on the highway subject to the weight limitation, and if the owner or operator of the vehicle reports the operation of the vehicle to the Town Roads Foreman within 72 hours after operating the vehicle.

(3) The Roads Foreman, or the Town Board by resolution, may authorize other exemptions for vehicles carrying commodities or performing services when reasonable and necessary to promote the public health, safety, and welfare.
