The DBE Program is a federal requirement legally enforced through and authorized in each Transportation Bill from ISTEA to Bipartisan Infrastructure Law.

DBE Policy

WisDOT's Disadvantaged Business Enterprise (DBE) Program is embodied in the Code of Federal Regulations 49 CFR part 26. The U.S. Congress established the DBE program in 1982 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, help remove barriers to the participation of underrepresented firms in DOT-assisted contracts, and assist the development of firms to compete successfully in the marketplace outside of the DBE program.

The program goal is to increase participation of firms owned by disadvantaged individuals in all federal aid and state transportation facility contracts.

WisDOT will not discriminate on the basis of race, color, national origin, or gender in the award and performance of any USDOT assisted contracts in the administration of its DBE program or requirements 49 CFR part 26.
