DATE: October 1, 2023
TO: All Trucking Firms
FROM: Paul Ndon, Trucking Utilization Specialist
Office of Business Opportunity & Equity Compliance
Wisconsin Department of Transportation
SUBJECT: **MEMORANDUM** on **Submission of 2024 Schedule of Owned and/or Leased Trucks**

WisDOT's Office of Business Opportunity and Equity Compliance (OBOEC) is sending this notice to all trucking firms as a requirement for all Trucking entities to complete and submit a schedule form as a condition of assignment to FFY 2023 WisDOT Construction Contracts.

This information is required of firms with the following classifications:

- a) Classified as a Trucking Operation
- b) Firm's identified business role as *Subcontractor*, and
- c) For DBE firms registered in work classifications commensurate with Dump Trucks and Flatbed Trucks identified by NAICS codes *484110 General Freight Trucking Local* and *484220 Specialized Freight Trucking Local*.

The revised due date for updates to the posted Schedule of Owned and/or Leased Trucks will be March 31, 2024.

Note: The Trucking Schedule is not a Trucking Provision.

The draft Trucking Provision is a comprehensive contract provision addressing multiple contracting factors and including relevant data sets that will be reviewed further with stakeholders.

Historically, WisDOT collected trucking schedules from 2005 through 2016 from DBE firms, electronically using CRCS software and manually. Currently, we are collecting this information from all trucking firms to establish accountability within WisDOT trucking operations for the following reasons:

- to comply with federal reporting for Title VI disparity analysis, contract & wage compliance, and DBE utilization.
- to ensure accuracy in intra-state agency reporting, and
- to simplify transition into AASHTOWare project CRL software.

I look forward to our continued cooperation.
