Fabricator approval is required prior to bid closing for use on any given WisDOT project (ref. Std. Spec. 101.2(2)).

Product Key*

1 - Unspliced rolled sections

2 - Field or shop spliced rolled beam bridge, straight or with radius > 500ft

Built-up I-girder with constant web depth, straight or with radius > 500ft, spliced or unspliced

Built-up I-girder with variable web depth, straight or with radius > 1000ft

Truss with length < 200ft, almost entirely preassembled at the certified facility and shipped in no more than three subassemblies

3 - Tub or trapezoidal box girders

Closed box girders

Truss with length > 200ft

Arches

Bascule bridges

Cable-supported bridges

Moveable bridges

Bridges with radius < 500ft

Bridges with fracture critical members

4 - Fracture Critical Members
