

2019 – 2022

STIP

Statewide
Transportation
Improvement
Program

Prepared in accordance with 23 U.S.C. Sections 134 and 135

Introduction

This Statewide Transportation Improvement Program (STIP) is intended to satisfy the requirements of 23 U.S.C. Sections 134 and 135 and their implementing regulations 23 CFR 450 and 49 CFR 613.

This STIP has been prepared in accordance with joint FHWA/FTA regulations (23 CFR Part 450 and 49 CFR Part 613) accounting for related statutory changes in Public Law 114-357 *Fixing America's Surface Transportation Act (FAST Act)* enacted on December 4, 2015. All current project fund commitments anticipated by the Wisconsin Department of Transportation (WisDOT) during the four-year period from January 1, 2019 through December 31, 2022 are listed.

The projects programmed in the STIP have been reviewed and prioritized by WisDOT in accordance with system asset management principles except as follows. In urbanized areas with populations of 200,000 or greater (Milwaukee, Madison, Appleton, Green Bay and Wisconsin portions of the Round Lake Beach, IL and Minneapolis/St. Paul, MN areas), federally funded projects off of the National Highway System (NHS) have been reviewed and prioritized by the respective Metropolitan Planning Organizations (MPOs). In urbanized areas with populations between 50,000 and 200,000, federally funded projects off of the NHS and State Trunk Highway Network (STN) have been reviewed and prioritized by the respective MPOs. Projects in areas with populations between 5,000 and 50,000 off of the NHS and STN have been reviewed, prioritized, and approved under WisDOT's formula based entitlement process.

The 2019 – 2022 STIP is based on anticipated state and federal funds. This overall multi-modal STIP reflects WisDOT's currently approved state and local programs within the limits of apportioned federal aid. All projects in the 2019 – 2022 timeframe are affordable and selected for implementation. Any subsequent changes in the project listing involving the addition or deletion of projects or significant changes in project schedule or estimated cost will be processed in accordance with the STIP amendment process outlined herein prior to requesting obligation of federal funds on the project.

Certifications

STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

In accordance with 23 CFR 450.220, the Wisconsin Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

- (1) 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- (2) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d–1) and 49 CFR part 21;
- (3) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (4) Section 1101(b) of the Fixing America’s Surface Transportation Act (FAST Act) (P.L. 114-357), and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in the US DOT funded projects;
- (5) 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (6) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (7) In non-attainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Financial Plan

The Statewide Transportation Improvement Program (STIP) financial plan addresses fiscal constraint requirements of the current federal-aid surface transportation act.

In managing implementation of the transportation improvement program, WisDOT will exercise the authority to refinance projects among federal, state, and local funds, and to reschedule projects within the four years of the STIP to maintain fiscal constraint. All four years of the STIP are fiscally constrained within Wisconsin's state fiscal years (July 1 – June 30).

Revenue Assumptions

The Wisconsin Department of Transportation's annual budget is set biennially through the State of Wisconsin's budget process. State Fiscal Year 2019 is from 2017 Wisconsin Act 59, the State of Wisconsin's 2017 – 2019 Biennial Budget authorizing federal, state, and local funding for this year. Since Wisconsin's budget is approved for only two years at a time, this analysis assumes the budget approved for State Fiscal Year (SFY) 2019 will be held constant for SFY 2020 – SFY 2022.

The federal fund revenue approved in 2017 Wisconsin Act 59 and included in this plan is \$797.5 million for SFY 2019. Since SFY 2020 – SFY 2022 budget amounts are held constant, future budgets are not increased; however, for planning purposes, the program schedule is set by applying an inflation rate to projects in the second, third, and fourth years to account for costs in year of expenditure.

WisDOT does not assume that a future state legislature will commit higher project revenues than exists in the approved biennial budget. Therefore, when doing an all funds (federal, state, and local) analysis, WisDOT uses only resources approved in the most recent biennial budget except where noted. Any future legislative budget action that impacts revenue or programming will be accounted for in Amendments to the STIP.

Wisconsin law allows WisDOT to allot additional local revenue authority on an as-needed basis depending on the summation of local municipal agreement revenue received within the fiscal year. Similarly, it is WisDOT's policy to allot additional federal authority to programs in which federal funds are programmed.

Local Programs

The programs directed at the locally-owned system face unique challenges due to the wide range of owners. WisDOT is working closely with local partners to formalize change management and programming strategies to reduce the movement of projects between fiscal years. In the past few years, WisDOT implemented project 'sunsets' as a management strategy to reduce project movement. In addition, state law requires Transportation Alternatives (290) Program projects must be commenced within four years of the date the grant is awarded.

Wisconsin has the flexibility to allocate funds between subprograms within overall programming to balance under and over programming each biennium in the four year STIP period. WisDOT routinely does this formally during the current fiscal year. However, because of local project movement, there may be periods of time where one year or program is over programmed, and another year or program is under programmed. WisDOT may also briefly experience a greater dollar amount in the schedule due to estimate changes and project slippage. The Department tries to avoid moving projects out because lining up the necessary local match can be a challenge. WisDOT has

very clear program guidance regarding available funding. To remain fiscally constrained, projects are rescheduled or funds are transferred between programs.

Program Cost and Schedule Assumptions

WisDOT’s Financial Integrated Improvement Programming System (FIIPS) reflects estimates of transportation improvement project costs in current 2018 year dollars.

To change these values to federally-mandated year of expenditure amounts for this publication, SFY 2020 – SFY 2022 project cost estimates in the Financial Plan table have been manually inflated by 1.7%. This inflationary rate is based on the current ten-year average change in the Consumer Price Index and matches the rate assumed by Wisconsin MPOs in their TIPs and long-range plans. Project estimates in SFY 19 reflect current cost expectations, so they have not been inflated in the table.

The Federal Highway Administration requires state Departments of Transportation STIPs and Metropolitan Planning Organizations TIPs to document revenues and expenditures annually. In Wisconsin, these publications report estimates by calendar year, (January 1 – December 31), based on letting or delivery dates. Since the State of Wisconsin approves budgets by State Fiscal Year, (July 1 – June 30), the 2019 – 2022 STIP Financial Summary table shows revenue and programmed amounts according to State Fiscal Years.

Operation and Maintenance

Wisconsin’s 2017 – 2019 Biennial Budget authorizes WisDOT’s Highway Maintenance, Repair and Traffic Operations Program 305 to spend \$301 million per year. Of that amount, \$10 million per year is authorized for Intelligent Transportation System and Traffic Signal Improvements; those projects are reflected in the 2019 – 2022 Financial Summary.

Wisconsin allocates state funding under several programs to assist local governments with the operation, maintenance and improvement of highways and bridges on the local system.

Program	SFY 2019	SFY 2020	SFY 2021	SFY 2022
GTA (Total)	\$459,733,100	\$459,733,100	\$459,733,100	\$459,733,100
Connecting Highway Aids	\$ 12,063,500	\$ 12,063,500	\$ 12,063,500	\$ 12,063,500
Lift Bridge Aids	\$ 2,659,200	\$ 2,659,200	\$ 2,659,200	\$ 2,659,200
County Forest Road Aids	\$ 284,700	\$ 284,700	\$ 284,700	\$ 284,700
TOTALS	\$474,740,500	\$474,740,500	\$474,740,500	\$474,740,500

State statute requires that local agencies submit pavement condition ratings to WisDOT every two years as a means to monitor responsible use of state funding assistance provided for local transportation needs. Information on these programs, including allocation formulas can be found at: <https://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/default.aspx>.

It has been historically demonstrated that the level of funding set aside for operations and maintenance of the highway program has been adequate. WisDOT expects this to continue into future years.

(1) Budget amounts reflect the approved biennial state budget for SFY 2018 - 2019, along with estimated budget for SFY 2020 - 2021.

(2) Budget amounts ["SFY Budget"] and Scheduled expenditures ["SFY Program"] are based on the state fiscal year (July – June).

(3) Sub-Program 206: SFY 2018 has local match of \$67,000,000 and SFY 2019 has a local match of \$32,000,000

(4) Sub-Program 301: SFY 2017 had no carryover

(5) Sub-Program 304: SFY 2017 had no carryover

(6) SFY2019 Program inflated reflects awarded Infra Grant, State Bond of \$126,000,000 is available for projects

Obligation Plan

In any given federal fiscal year (October 1 – September 30), the Wisconsin Department of Transportation obligates all the federal fund authority it receives.

Federal Fund Type Constraint

On December 4, 2015, Fixing America's Surface Transportation (FAST) Act was signed into law. This continued many of the MAP-21 program consolidations.

WisDOT's approach to programming incorporates federal funding flexibilities permitting transfer of funds between federal programs and the use of Advance Construction (AC) under which eligibility for federal funding is established to allow a project to proceed prior to obligation of federal funding. Under these provisions, specific federal fund types may be over programmed as long as the overall federal program in total is constrained across the four-year period.

WisDOT also reserves federal funding associated with special obligation limitation to offset over programming and to cap the amount of funding under advance construction. WisDOT's fiscally conservative standards do not allow the use of AC to exceed the level of apportionments received from FHWA. In other words, AC is used as a tool to manage the timing of obligation but not to increase the number of projects undertaken. When a project is funded with federal AC funds, WisDOT covers the federal cost share with general transportation state funds until the funds can be obligated using available apportionments and obligation limitation. This ensures Wisconsin's commitments are fiscally constrained within a guaranteed federal reimbursement level.

Federal Fund Type Assessment

The Wisconsin Estimated FFY 2019 – 2022 Federal Aid Highway Apportionments and Program Levels table lists federal apportionment balances at the end of FFY 2018 as well as the amount apportioned for FFY 2019 and estimated apportioned amounts for FFY 2020 – 2022.

Over the past six years, WisDOT's total federal obligation limitations (including Equity Bonus) have remained relatively flat and were \$796 million in FFY 2018. The total expected federal funds available for obligation each state fiscal year is inflated beginning in FFY 2020 at 2.0% per year based on the FAST Act. To change the state fiscal year estimated program levels to federally-mandated year of expenditure amounts, cost estimates have been inflated 1.7% per year beginning in SFY 2020, similar to the Financial Plan table.

As a further check, the STIP is fiscally constrained over the four-year period. This ensures that revenues exist to convert all projects advanced under advance construction within the period of the STIP.

* FFY Estimated Apportionments are based on the FAST Act.

**Unobligated Balances reflect prior year SAFETEA-LU & MAP-21 Program Balances. SAFETEA-LU & MAP-21 fund programs, e.g., IM, NHS, have been rolled into the corresponding FAST Fund Type.

** Unobligated balances from Previous Years are not included in the FFY 2018 - 2021 Estimated Apportionments Total.

***Equity Bonus & NHPP Exempt Funds Used to balance programming in FFY 2018 through FFY 2021 are applied by reducing the Unobligated Equity Bonus Balance in Previous Years. Unobligated Balances in Allocated Funds Categories (HPP, FLAP, RTP, Other) are similarly applied to balance estimated programming levels.

****Estimated Apportionment amounts are calculated on inflation amount of 2% based on FAST Act for FFY 2019 - 2021

(1) Federal Lands Access Program and Recreational Trails Program are programmed on an annual basis.

(2) Includes Section 112, Section 115, Section 117, PRNS, Highway Priority, Surface Transportation S129, NTPP, Map-21 Training and Education, DBE Training, Skills Training, Ferry Boats; Emergency Relief, Highway-Use Tax Evasion Project, Highways for Life Pilot Program and Misc. Demo funds.

Transportation Improvement Program Approvals

WisDOT Secretary Dave Ross, under authority delegated by Governor Scott Walker, has approved all the following Transportation Improvement Programs (TIPs) and/or TIP Amendments for the Metropolitan Planning Organizations (MPOs):

1. State Line Area Transportation Study (Beloit, WI-IL MPO); phone 608.364.6690; 2019 – 2022 TIP as adopted on October 29, 2018 by Resolution No. 2018 – 15 for the 2040 long-range plan and approved by WisDOT on December 14, 2018.
2. West Central Wisconsin Regional Planning Commission (Chippewa-Eau Claire MPO); phone 715.836.2918; 2018 – 2022 TIP as adopted on October 11, 2017 by Resolution No. 17 – 04 for the 2045 long-range plan and approved by WisDOT on January 5, 2018.
3. East Central Wisconsin Regional Planning Commission (Fond du Lac MPO); phone 920.751.4770; 2019 – 2022 TIP as adopted on October 3, 2018 by Resolution No. 07 – 18 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.
4. East Central Wisconsin Regional Planning Commission (Fox Cities MPO); phone 920.751.4770; 2019 – 2022 TIP as adopted on October 26, 2018 by Resolution No. 28 – 18 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.
5. Brown County Planning Commission (Green Bay MPO); phone 920.448.6480; 2019 – 2023 TIP as adopted on October 3, 2018 by Resolution No. 2018 – 08 for the 2045 long-range plan and approved by WisDOT on December 14, 2018.
6. Janesville Metropolitan Planning Organization (Janesville MPO); phone 608.755.3095; 2019 – 2024 TIP as adopted on November 12, 2018 by Resolution No. 2018 – 08 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.
7. La Crosse Area Planning Committee (La Crosse, WI-MN MPO); phone 608.785.5977; 2019 – 2022 TIP as adopted on November 21, 2018 by Resolution No. 12 – 2018 for the 2040 long-range plan and approved by WisDOT on December 14, 2018.
8. Madison Area Transportation Planning Board (Madison MPO); phone 608.266.4518; 2019 – 2023 TIP as amended on November 7, 2018 by Resolution TPB No. 147 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.

9. East Central Wisconsin Regional Planning Commission (Oshkosh MPO); phone 920.751.4770; 2019 – 2022 TIP as adopted on October 26, 2018 by Resolution No. 29 – 18 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.

10. Southeastern Wisconsin Regional Planning Commission (Milwaukee, Racine, Kenosha, and Wisconsin portions of Round Lake Beach MPOs); phone 262.547.6721; 2019 – 2022 TIP as adopted on December 13, 2018 by Resolution No. 2018 – 25 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.

11. Bay-Lake Regional Planning Commission (Sheboygan MPO); phone 920.448.2820; 2019 – 2022 TIP as adopted on October 26, 2018 by Resolution 11 – 2018 for the 2045 long-range plan and approved by WisDOT on December 14, 2018.

12. Duluth-Superior Metropolitan Interstate Council, (Duluth-Superior MPO); phone 218.529.7506; 2019 – 2022 TIP as adopted on October 17, 2018 by Resolution No. 18 – 23 for the 2040 long-range plan and approved by WisDOT on December 14, 2018.

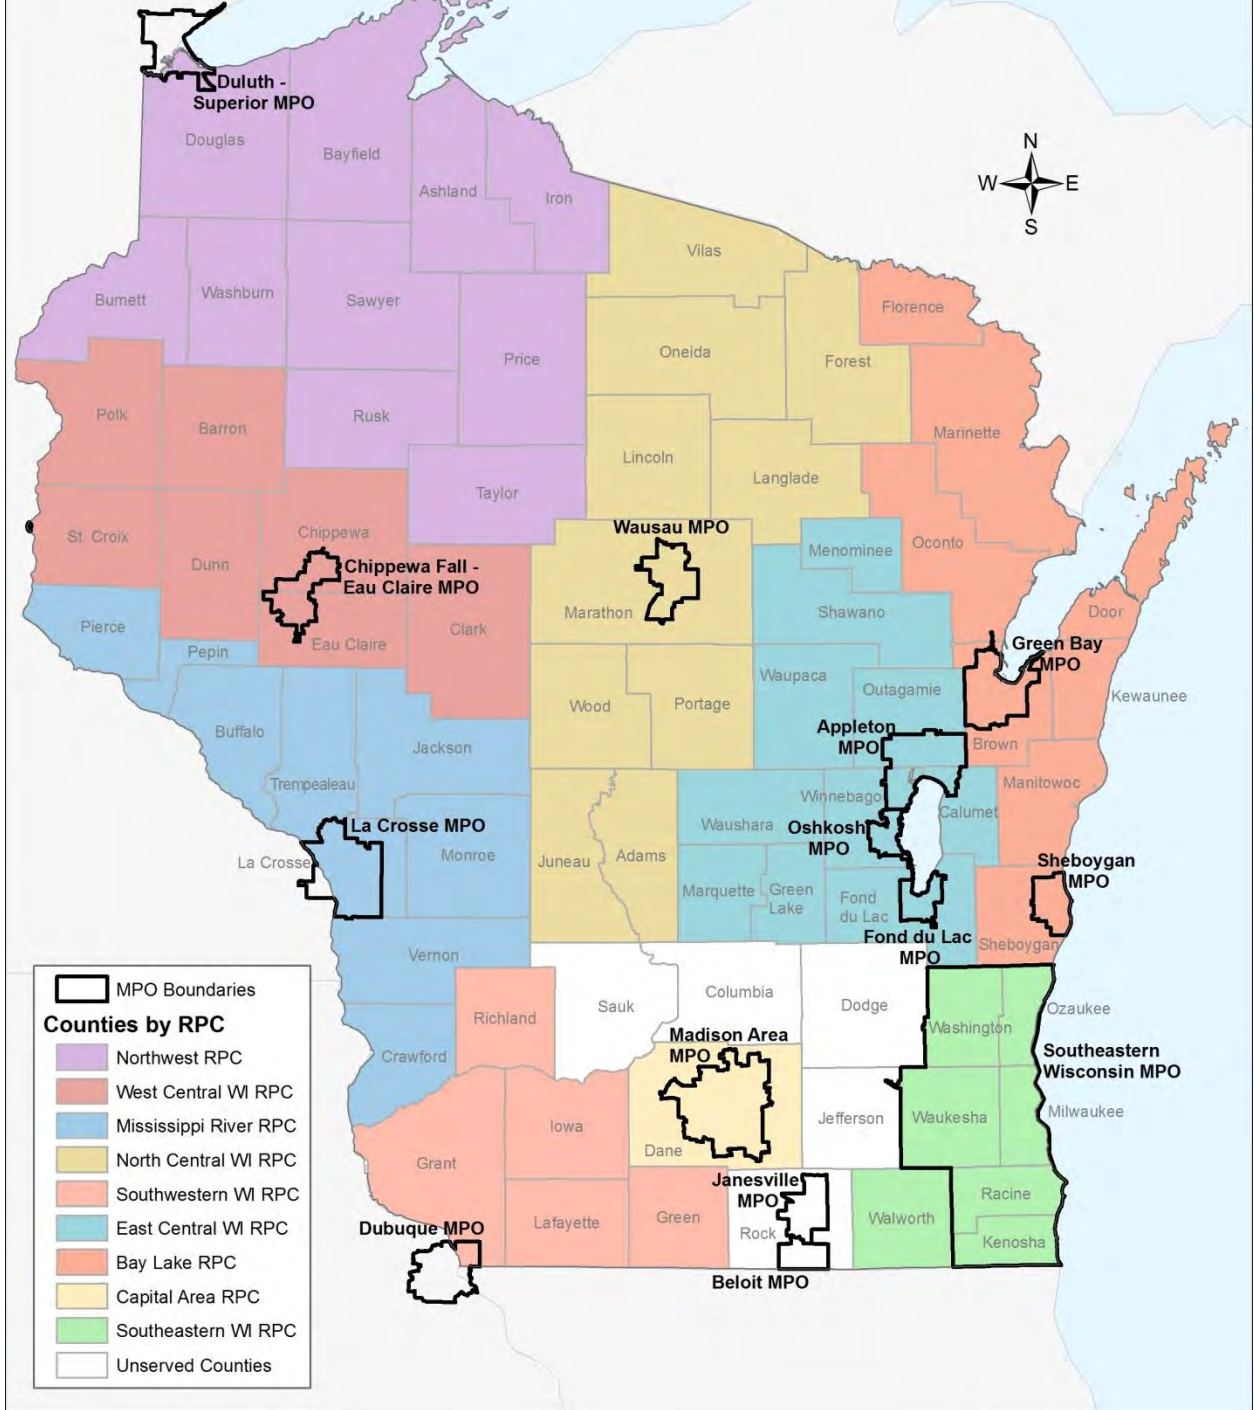

13. Marathon County Metropolitan Planning Commission (Wausau MPO); phone 715.261.6043; 2019 – 2022 TIP as adopted on November 13, 2018 by Resolution No. 7 – 18 for the 2050 long-range plan and approved by WisDOT on December 14, 2018.

14. East Central Intergovernmental Association (Dubuque, IA MPO); phone 563.556.4166; 2019-2022 TIP as amended on July 12, 2018 for the 2045 long-range plan and approved by WisDOT on December 14, 2018.

15. Metropolitan Council (Twin Cities MPO); phone 651.602.1000; 2019 – 2022 TIP as adopted on September 26, 2018 by Business Item 2018 – 233 for the 2040 long-range plan and approved by WisDOT on December 14, 2018.

Transit Funds Sections 5303, 5304, 5311, 5314, 5316 and 5317, are reflected in individual TIPs and are administered by WisDOT. Transit Funds Sections 5307, 5309, 5310 and 5339, are reflected in individual TIPs and can be administered by WisDOT or directly between FTA and the urbanized area transit operator.

Wisconsin RPCs and MPOs

Federal Transit Assistance Programs

The following are federal transit assistance programs authorized under Fixing America's Surface Transportation Act (FAST Act), which reauthorized the federal surface transportation programs. The FAST Act amended the federal transit laws and took effect October 1, 2015.

Section 5303: Metropolitan Transportation Planning Program

Section 5303 is a formula-based grant program apportioned annually to states for use. All 5303 planning funds are transferred to the Federal Highway Administration. Federal share is 80% with a required 20% non-federal match.

Section 5304: Statewide Transportation Planning Program

Section 5304 is a formula-based grant program apportioned annually to the states for use in rural planning and research. Federal share is 80% with a required 20% non-federal match.

Section 5307: Urbanized Area Formula Program

This program provides grants to urbanized areas (over 50,000 in population) for public transportation capital, planning, and Job Access and Reverse Commute (JARC) projects, as well as operating expenses in certain circumstances. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit. WisDOT allocates the portion of this funding known as the 'Governor's Apportionment' among transit systems in communities with populations between 50,000 and 200,000 as defined by the most recent Census.

Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities

This program is intended to enhance mobility of seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. This program consolidated two SAFETEA-LU programs: Section 5317 – New Freedom and Section 5310 – Elderly and Disabled Capital Assistance. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit.

Section 5311: Formula Grants for Rural Areas

Section 5311 is a formula grant program for non-urbanized areas (under 50,000 in population) that provides capital and operating assistance for public transportation systems. Eligible activities include capital, operating assistance, and planning expenses. JARC projects once funded through Section 5316 became eligible projects in the MAP-21 reauthorization bill in 2012. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit.

Section 5311(b)(3): Rural Technical Assistance Program (RTAP)

Section 5311(b)(3) is formula funding for states to provide research, technical assistance, and training to improve the delivery of transit services in non-urbanized areas (under 50,000 in population). There is no Federal requirement for a local match.

Section 5329: State Safety Oversight (SSO) Program

The purpose of the SSO program is to oversee safety of rail transit systems. The SSO program is administered by eligible states with rail transit systems in their jurisdiction. FTA provides federal funds through the SSO Formula Grant Program for eligible states to develop and carry out their SSO programs. Under 49 U.S.C. Section 5329(e), as amended by the FAST Act, FTA is required to certify each state's program to ensure compliance. SSO grant funds awarded to Wisconsin have a federal share of 80% and a required non-federal match of 20%.

Section 5339: Bus and Bus Facilities Formula Grants

Section 5339 provides capital funding to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities. It replaced the Section 5309 Bus and Bus Facilities program under SAFETEA-LU. The federal share is 80% with a required 20% non-federal match. There are funds annually allocated to states by formula, as well as a national discretionary program for which urban fixed-route transit systems and state departments of transportation may apply.

Anticipated Federal Transit Funding Levels, 2019-2022 State of Wisconsin¹

¹ Amounts shown in this table are annual estimates. The available amount for a program is based on funding as authorized under Fixing America’s Surface Transportation Act (P. L. 112-141, 2015).

² Section 5303 funds are transferred to the Federal Highways Administration.

³ Section 5307 are the Governor’s Apportionment. Funds are also allocated directly to large urban transit systems.

⁴ Section 5339 funds combine WisDOT’s statewide allocation and the Governor’s Apportionment. Funds are also allocated directly to large urban transit systems.

Wisconsin Public Transit Systems 2019

Intercity Passenger Rail Projects

Several Federal Railroad Administration Program funded projects have been identified in studies of two existing intercity passenger rail corridors, and are eligible for federal funding for final design and construction.

In addition, WisDOT has submitted federal discretionary grant applications under the Consolidated Rail Infrastructure and Safety Improvement (CRISI) and Better Utilizing Investments to Leverage Development (BUILD) programs in SFY 2018 and SFY 2019 for three passenger rail projects that, if awarded, could begin in SFY 2019.

Studies with projects identified:

- 1) Adding one to three additional daily round-trip frequencies between Milwaukee and Chicago on the Hiawatha Service in cooperation with the State of Illinois. The project would involve final design (SFY 2019 – 2021) and construction (SFY 2020 – 2022), pending completion of the Environmental Assessment and Service Development Plan (completion SFY 2019).
 - a) Projects in Wisconsin identified in the Environmental Assessment and Service Development Plan to accommodate the additional round-trip frequencies (capital costs provided are rounded preliminary estimates):
 - i) Muskego Yard signalization and track/bridge improvements (Milwaukee):
\$24 million - \$60 million
 - ii) Milwaukee Airport Rail Station second platform with overhead access (Milwaukee):
\$10.1 million
 - iii) CTC signalization between Milwaukee Intermodal Station and Cutoff (Milwaukee):
\$5.4 million
- 2) Adding one new state-supported intercity passenger rail frequency between Chicago and the Twin Cities on the Amtrak Empire Builder corridor. This is a Minnesota-led effort to complete a required NEPA study, which includes an environmental clearance and preliminary engineering, in SFY2019.
 - a) Based on the results of the NEPA study, the next steps could be Final Design (SFY 2020) and construction (SFY 2021 – 2022) of infrastructure improvements identified in the NEPA study. Infrastructure improvements in Wisconsin include:
 - i) Rebuild Second CP Rail Main Track to the west and east of the La Crosse Amtrak Depot and extend La Crosse CP Rail Yard Lead West
 - ii) Extend existing 15,000 foot CP Rail siding at Medary, WI approximately 13,000 feet. Install universal crossover at existing Medary East
 - iii) Install universal crossover on existing CP Rail double track section west of Columbus Station

Final Design and Construction Projects:

At the time of publication of the STIP, there were several grant applications submitted by WisDOT to the U.S. Department of Transportation for final design and construction of passenger rail improvements. If awarded, these would be obligated in SFY2019. The applications were for the following three projects.

- 1) Milwaukee Airport Rail Station second platform with overhead access (Milwaukee):
\$10.1 million
- 2) CTC signalization between Milwaukee Intermodal Station and Cutoff (Milwaukee):
\$5.4 million
- 3) Acquisition of three cab-coach cars and six coach cars for the Amtrak Hiawatha Service:
\$38.9 million

Potential additional federal grant applications to be submitted in SFY2019, with obligation in SFY2019 or SFY2020:

- 1) Muskego Yard signalization and track/bridge improvements (Milwaukee):
\$60 million

Federal funding sources include, but are not limited to, the following grant programs:

- Infrastructure for Rebuilding America (INFRA)
- Consolidated Rail Infrastructure and Safety Improvement (CRISI)
- Better Utilizing Investments to Leverage Development (BUILD)
- Federal-States Partnership for State of Good Repair

Roadway and Bridge Improvement Programs

The pages that follow list all of WisDOT's projects planned for implementation in Calendar Years 2019, 2020, 2021 and 2022. Projects are sorted in the following order:

CALENDAR YEAR

DIVISION-BUREAU (REGION)

COUNTY NAME

HIGHWAY NUMBER

SCHEDULE DATE

PROJECT ID

It should be noted that the list contains some minimal over-programming (i.e., more projects than can actually be funded in a given year) to allow for attrition, that is, projects being delayed or dropped for other than financial reasons. Preliminary engineering projects will not be contained in the following list although they are likely to be listed in the appropriate MPO TIP.

It should also be noted that the FEDERAL FUND TYPE (or lack of) shown for each project represents a *tentative* fund assignment that may or may not become reality. WisDOT reserves the right to change the federal fund type on individual projects at any time prior to obligation, when necessary, consistent with its overall obligation plan to maximize the use of available federal aid.

Programing based on FAST Act Funding Programs

Federal-aid highway and transit funding programs are based on the 2015 transportation authorization act *Fix America Surface Transportation Act (FAST Act)*. WisDOT will make all required program adjustments in accordance with the FAST Act legislation along with any related federal regulations and guidance.

Note: The estimated cost range is provided so that WisDOT can award projects by using the competitive process and not disclose bidding information.

Funding Codes

<u>Fund Type</u>	<u>Project Prefix</u>
Congestion Mitigation Air Quality	CMAQ, CM
Surface Transportation Program (STP) – state reference FAST Act program for the state STP is the Surface Transportation Block Grant (STBG) Program	STP, SPIBR, STP-D, STP-R, STP-S, STP-U, STBG, STPS, RS, F, FBD, HSIP STO, STPI
High Priority Projects	HPP, HPPNH, HPPIB, HPD
Equity Bonus	EB
National Highway Freight Program	NHFP
National Highway System	NHS, NH, NHSTP, NHI
National Recreational Trails (funds transferred to DNR)	NRT
National Highway Performance Program	NHPP
Discretionary Allocations	ICES, ITS, NCPD, TCSE, ER
Bridge Replacement and Rehabilitation	BR, BH, BR/BH, BRBH, BRM, BHO, BRO, BHF, BRF
Public Land and Forest Highway Programs	PLH, FH, OMA
Statewide Metropolitan Planning	SPR, PL
Transportation Alternatives Program	TAP

Local Programs

All these programs, except for the Local Bridge Program, utilize federal and local funds to pay for local projects. In addition to federal and local funds, the Local Bridge Program may also utilize state funds to pay for local projects.

Local Bridge Program: Funds the improvement of local bridges. This includes engineering and construction costs for administering and implementing bridge improvements on roads that are not a part of the State Trunk Highway (STH) System.

Local Highway Improvement Assistance: Funds the improvement of local highways, including engineering, real estate, construction costs, and department services on roads that are not a part of the STH System.

STP Urban Program: Improvements in urban areas with populations greater than 5,000. Also, non-highway projects including multi-modal facilities, transit capital improvements, and bicycle and pedestrian facilities.

STP Rural Program: Improvements to roads and streets functionally classified as higher than rural minor collectors. Also, non-highway projects including multi-modal facilities, transit capital improvements, and bicycle and pedestrian facilities.

Congestion Mitigation Air Quality (CMAQ): Funds projects that have a positive impact on air quality including highway efficiency improvements, carpooling, transit improvements, development of bicycle and pedestrian facilities, and alternative fuel facility and vehicle projects. These projects are located in or impact nonattainment and maintenance areas for criteria pollutants.

The Transportation Alternatives Program (TAP): Funds programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, bicycle and pedestrian plans, and safe routes to school projects. It is the State of Wisconsin's STBG-Set-Aside program.

State Programs

All these programs utilize federal, state, and/or local funds to pay for projects located on the State Trunk Highway (STH) system.

Major Highway Development: Major Highway Development projects are generally the most complex, costly and controversial projects initiated by WisDOT. They are long-term solutions to the most serious deficiencies on highly traveled segments of the highway system. A Major Project cost threshold is indexed to construction inflation. As of October 1, 2018, the cost thresholds are either a total cost of more than \$91.1 million or a total cost of \$36.4 million and involving one of the following:

- 1) Constructing a new highway 2.5 miles or more in length;
- 2) Reconstructing or reconditioning an existing highway by one of the following:
 - a. Relocating 2.5 miles or more of existing highway;
 - b. Adding one or more lanes 5 miles or more in length to the existing highway;
 - c. Improving to freeway standards 10 miles or more of existing divided highway having two or more lanes in either direction.

Southeast Wisconsin Freeway Megaprojects: This program provides funding for all projects on the southeast Wisconsin freeway system expected to cost more than \$500 million, including the reconstruction of the I-94 North-South freeway and the Zoo interchange. Under this program:

- 1) The megaprojects cost threshold is indexed to construction inflation (as of October 1, 2018 the threshold is \$609.5 million).
- 2) Megaprojects must be enumerated by state law.

Improvement of State Bridges: The state bridges subprogram funds improvements to bridges on the non-Interstate portion of the STH System, including bridge replacements and major bridge repairs. It does not include bridges that can be effectively treated through routine repair; those are done through the maintenance program. State bridge improvements are identified as one of two types:

- 1) Replacement: Constructing a new bridge to replace one that is posted, is structurally deficient, or is obsolete and likely to become structurally deficient;
- 2) Rehabilitation: Restoring the structural integrity of an existing bridge using measures that go beyond routine maintenance and are more cost-effective than total replacement.

State bridges are also categorized by cost:

- 1) High-cost bridges are those whose deck areas are 40,000 square feet or more;
- 2) Routine bridges are those whose deck areas are less than 40,000 square feet.

Highway Traffic Operations: This subprogram includes all the repair and operation of pavement markings, traffic signs, traffic operation improvements, and freeway detours.

State Programs (continued)

Backbone Rehabilitation: The Backbone Rehabilitation subprogram funds improvements on Wisconsin's 1,588-mile Backbone highway system. The Backbone System includes all 876 miles of Interstate routes in the state as well as those freeways and expressways that are designated as Backbone roadways in Connections 2030, Wisconsin's long-range transportation plan. Improvements funded in the Backbone Rehabilitation program include bridge preservation, bridge rehabilitation, bridge replacements, pavement preservation, pavement rehabilitation, pavement replacement, and intersection and interchange improvements.

Existing Highway Improvements: The Existing Highway Improvements program funds improvements to the non-Backbone portion of the STH System. The program funds "3R" improvements (resurfacing, reconditioning, and reconstructing) to existing roadways, the minor addition of lanes, traffic and safety improvements, and minor realignments of roadway. Improvements in this subprogram are categorized by the type of work involved:

- Resurfacing: Rehabilitating the surface of a pavement to provide a smoother ride and to extend the pavement's structural life. Can also include pavement widening and/or shoulder paving to improve safety and reduce shoulder maintenance costs.
- Reconditioning: Resurfacing and improving an isolated grade, curve, or intersection.
- Pavement Replacement: The highest type of "resurfacing" whereby the existing pavement structure is replaced with a new one. Does not include widening of the roadway.
- Reconstruction: Total rebuilding of the highway to provide a safer facility, to improve geometrics (i.e. longer passing and stopping sight distances, broader turning radii, and additional lanes at intersections) and increased traffic handling capabilities. Other benefits are a smoother ride, reduced travel time and lower maintenance costs.

Maintenance Program: This program funds the refurbishment, repair, cleaning, painting, re-lamping, etc., of existing traffic control devices (TCDs). Although state crews do most of the routine maintenance on TCDs, the nature of some of the work and/or the sheer volume of it requires outside help. The biggest items are sign refurbishment of the large freeway guide signs, cleaning and re-lamping of the highway lighting units, and traffic control signals on the system.

Safety Programs

All these programs utilize federal funds and the match is either state, local, or railroad funds, depending upon the jurisdiction of the highway and type of railroad project. These funds pay for activities that promote safety. The Highway Safety Improvement Program is incorporated into the safety related projects listed by WisDOT Region in the STIP.

Highway Safety Improvement Program (HSIP): Funds street and highway improvements to high crash locations on state, county, and local highways, including the Interstate System. Generally speaking, low cost improvements that maximize safety benefits are sought.

Railroad Crossing Warning Devices: Funds signal warning device installations, circuitry improvements, flashing lights, cantilevered flashing lights, and gates.

Railroad Crossing Elimination of Hazards: Funds geometric improvements (grades), modular crossings, separations (limited because of high costs), consolidations, and closures.

Project Listing Reference Information

The tables on pages 7 – 7 through 7 – 9 are provided as reference for the information within the preceding Tab 7 central office and region project listings:

Program (Pgm) code	
205	Highway and local bridge improvement assistance
206	Local transportation facility improvement assistance
207	Railroad crossing improvement, protection, and repair assist
208	Multimodal transportation studies
209	Transportation facilities economic assistance and development
210	Surface transportation grants
211	Congestion mitigation and air quality improvement
214	Transportation enhancement activities
215	Bicycle and pedestrian facilities
217	Safe routes for schools
290	Transportation alternatives
301	Southeast Wisconsin freeway megaprojects
302	Major highway development
303	State highway rehabilitation
304	Major interstate bridge construction
305	Highway maintenance, repair, and traffic operations

Contract Types	
ATR	TEA Rail Contract
C/E	Consultant Delivery (Preliminary or Construction Engineering)
CCO	Contract Change Order (When a separate project ID is used)
I/E	In-house delivery (Prelim or Construction Engineering)
JTP	Jurisdictional Transfer Payment (used only when a payment is being made to a local for work they are going to do on the roadway to be transferred)
LET	Contract via Bid Letting
LFA	Local Force Account (replaces AUP, CRC and S&S)
LLC	Locally Let Contract
M/E	Municipal Engineering
MIS	Miscellaneous Negotiated Contract
OST	Other State Let Contract
PRR	Passenger Rail Service
R/E	Real Estate Acquisition (For encumbering real estate payments)
R/R	Railroad Contract
SFA	State Force Account
TST	Fund Transfer to Federal Transit Authority
UTL	Utility Contract (For compensable utility contracts)

Concept Improvement Codes

The table below defines improvement concepts:

Improvement Concept Code	FDM 3-5-2 Highway “Roadway” Improvement Type	Improvement Concept Definition
PSRS10 PSRS20 PSRS30 PSRS40	Preservation / Restoration	PRESERVATION / RESTORATION – preservation/restoration treatments may address cracks, joints and surface imperfections, seal and protect the road surface, improve friction and/or remove and apply a minimal riding surface (code varies by treatment type).
RSRF10 RSRF20 RSRF30 COLD10 COLD20	Resurfacing	RESURFACING – placing a new surface on an existing roadway to provide a better all-weather surface, a better riding surface, and to extend or renew the pavement life (code varies by thickness of resurface). Cold-in-place recycling when applicable.
RCND10 RCND20	Reconditioning	RECONDITIONING – work in addition to resurfacing. Minor reconditioning (10) includes intersection work, pavement widening and/or shoulder paving. Major reconditioning (20) includes improvement of an isolated grade, curve, intersection or sight distance problem to improve safety.
PVRPLA PVRP_O COLD30	Pavement Replacement	PAVEMENT REPLACEMENT – structural improvement of the pavement structure or removal of the total thickness of all paving layers from an existing roadway and providing a new paved surface without changing the subgrade. PVRP_O includes operational improvements. Full depth Cold-in-place recycling where applicable.
RECST BRNEW	Reconstruction	RECONSTRUCTION PRESERVATION – total rebuilding of an existing highway to improve maintainability, safety, geometrics and traffic service.
RECSTE BRNEW	Expansion	RECONSTRUCTION EXPANSION & NEW BRIDGE – includes the same types of work associated with reconstruction, but also involves the construction of additional through travel lanes or new structures.
BRRHB	Bridge Rehabilitation	BRIDGE REHABILITATION – the preservation or restoration of the structural integrity of an existing bridge as well as work to correct safety defects.
BRELM BRRPLE BRRPL	Bridge Replacement	BRIDGE ELIMINATION, BRIDGE REPLACEMENT EXPANSION & BRIDGE REPLACEMENT PRESERVATION – the building of a new bridge to replace an existing bridge.

MISC		MISCELLANEOUS – Work that is not classified under other Improvement Concept codes, including Construction Work Zone Traffic Mitigation/Service Patrol, Bank Developed Wetland Mitigation, Project Specific Wetland Mitigation, Jurisdictional Transfer, placeholders, ITS incidental items acquired via purchase order or request for proposal, Service Patrol Service Order Contract, TOPS Lab safety studies, salt sheds, temporary widening, temporary bridges, Majors satellite field office costs.
------	--	--

Consult the Facilities Development Manual (FDM) Procedure [3-5-2](#) for comprehensive definitions of improvement types.

The following traffic operations improvement concepts should be used with Legislative Subprogram 305 – Highway Maintenance, Repair and Traffic Operations

Improvement Concept Code	Improvement Concept Definition
TOPM	STH – TRAFFIC OPERATIONS PAVEMENT MARKING – intended to cover all costs associated with general pavement marking including repainting centerline markings, lane line and no-passing zone markings, edge line markings and special pavement markings on existing highways. Special marking presently includes but is not, limited to the following items; channelizing lines, railroad crossing markings, stop lines, crosswalks, words and symbols, arrows, diagonal markings, curb markings, parking stall lines, bike lane markings and island nose markings.
TOS	STH – TRAFFIC OPERATIONS SIGNING – includes all work associated with the installation of new signs and supports along existing highways. It also includes the maintenance of highway signs, supports and sign bridges. Maintenance is defined as replacing, repairing and refacing signs.
TOE	STH – TRAFFIC OPERATIONS ELECTRICAL – includes all costs for the installation and maintenance of highway lighting (including relamping, repair and replacement) and the maintenance of weigh station and sign lighting.
TOITS	STH – TRAFFIC OPS INTELLIGENT TRANS SYSTEMS (ITS) – Intelligent Traffic Systems are defined by FHWA as: Intelligent Transportation System (ITS) means electronics, communications, or information processing used singly or in combination to improve the efficiency or safety of a surface transportation system. This definition provides the base for the charging to program code 3890. Anticipated uses of 3890 will include but are not limited to; expenses relating to the operations and integration of ITS field devices, ITS deployment program planning expenses, and the expenses associated with the design and construction of ITS stand-alone project identified in the fiscal budget.
TOSIG	STH – TRAFFIC OPERATIONS-TRAFFIC SIGNALS – includes all work associated with the installation, maintenance and repair of traffic control signals and beacons not part of an improvement project.
TOI	STH – TRAFFIC OPERATIONS IMPROVEMENT BRIDGE REPAIR – only used for projects using sub-program 305 for urgent bridge repairs.

Public Involvement

Current federal legislation requires the Governor to ensure that WisDOT and the MPOs develop plans to actively involve the public in the development of the STIP. WisDOT uses an ongoing STIP public involvement plan that includes:

- 30-day written comment period on the STIP (yearly)
- State Trunk Highway System project development and Six-Year Highway Program hearings (ongoing)
- MPO public hearings on TIPs (yearly)
- Local government hearings on transit projects for smaller systems (ongoing)
- Local government hearings on local road projects (ongoing)

The focus of this plan is on maximizing public involvement at the state, MPO, and local levels—on an ongoing basis—when initial project decisions are presented and made. WisDOT published its first STIP Public Involvement Plan in November of 1993. The STIP Public Involvement Plan (PIP), which was updated in November 2016, continues to focus on the public involvement processes used on various types of transportation projects. The 2016 update of the STIP PIP includes public involvement aspects of new legislation; Public Law 112 – 141 *Moving Ahead for Progress in the 21st Century Act* along with Public Law 114 – 357 *Fixing America’s Surface Transportation Act (FAST)*. The plan is available at: <http://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>

Although the STIP Public Involvement Plan does not require any public hearings, WisDOT may agree to have a public hearing if one is requested. The STIP Public Involvement Plan will continue to rely on written comments from the public regarding the draft STIP.

The legal notice advertising the draft STIP was published on November 14, 2018. A copy of the notice is presented below.

LEGAL NOTICE

The Wisconsin Department of Transportation announces the availability of its draft multimodal 2019-2022 Statewide Transportation Improvement Program (STIP). The draft STIP is available from the State Transportation Improvement Program website: <http://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>.

The comprehensive improvement program includes all federally funded highway, transit, bike and pedestrian projects to be undertaken in Wisconsin during the 2019-2022 timeframe. The draft STIP is subject to a 30-day public comment period. The final STIP will be issued in January 2019. Inquiries about the draft STIP and written comments on the improvement program should be directed, before December 15, 2018, to the Wisconsin Department of Transportation’s Division of Transportation Investment Management, Bureau of Planning and Economic Development, P.O. Box 7913, Madison, WI 53707-7913; 608-266-3662.

Performance Measures

Introduction

MAP-21 and FAST ACT requires incorporation of Performance-Based Planning and Programming (PBPP) in the development of the State's Long-Range Transportation Plans (LRTP) and Statewide Transportation Improvement Plans (STIP). The incorporation of PBPP in the STIP will contribute to the achievement of National Performance goals (23 USC 150). The Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning; Final Rule further defined that the STIP shall include, to the maximum extent practicable, a description of the anticipated effect of the STIP toward achieving the performance measures targets identified in the statewide transportation or State Performance-based plan(s), linking investment priorities to those performance targets (23 CFR 450.218(q)).

23 USC 150: National performance measure goals are:

- **Safety** - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads
- **Infrastructure Condition** - To maintain the highway infrastructure asset system in a state of good repair
- **Congestion Reduction** - To achieve a significant reduction in congestion on the National Highway System
- **System Reliability** - To improve the efficiency of the surface transportation system
- **Freight Movement and Economic Vitality** - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
- **Environmental Sustainability** - To enhance the performance of the transportation system while protecting and enhancing the natural environment
- **Reduced Project Delivery Delays** - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.

WisDOT Performance-Based Planning and Programming processes

MAPSS Performance Improvement

WisDOT has utilized the MAPSS Performance Improvement Program since January 2012 to track improvements. MAPSS is organized around five strategic department goal areas: Mobility, Accountability, Preservation, Safety, and Service. Many of the MAPSS performance measures are closely related to the MAP-21/FAST Act performance measures. Mobility performance measures include Delay (hours of vehicle delay) and Reliability (planning time index). Preservation performance measures include State Highway Pavement Condition and State Bridge Condition. Safety performance measures include the number of Traffic Fatalities and Serious Injuries. Additional performance measures are included within each of the MAPSS goal areas. Current measures are posted on the WisDOT MAPSS internet site:
<https://wisconsin.gov/Pages/about-wisdot/performance/mapss/default.aspx> .

WisDOT data-driven project development

WisDOT has embraced a “data-driven” asset management approach to the development of projects and programs that improve the State Trunk Highway Network. In conjunction with this reliance on data for decision-making, WisDOT has committed to a process of continual data quality improvement (e.g. standards for collection and storage, leverage of technology, integration strategies, etc.).

WisDOT has developed a comprehensive set of data and analysis tools for developing and managing the Six Year Highway Improvement Program. The primary components of the dataset include a geographically integrated set of corporate databases (using specialized tools) representing:

- Pavement and bridge condition
- Six Year Program information
- Highway geometric and attribute information
- Highway crashes, highway capacity, etc.
- Pavement and bridge deterioration and improvement “reset” models
- Analysis models for evaluating alternatives, costing, priorities, and budget constraints

The data is used to:

- Identify, scope, and prioritize projects
- Evaluate Program performance (e.g. before/after analyses)
- Estimate future conditions and needs
- Establish Program goals
- Allocate resources for Programs and Highway Transportation Regions

To date, utilization of the data-driven project development approach has provided significant insight into the condition, needs, and priorities related to the Wisconsin State Trunk Highway System. These efforts have enhanced statewide program development consistency by facilitating an improved understanding of how program goals and performance measurements are established.

MAP-21/FAST Act Performance Measures

MAP-21/Fast Act Performance Measures as established in 49 USC 625 and 23 CFR 490 are:

- Transit
 - Rolling Stock: The percentage of revenue vehicles (by type) that exceed the useful life benchmark (ULB)
 - Equipment: The percentage of non-revenue service vehicles (by type) that exceed the ULB
 - Facilities: The percentage of facilities (by group) that are rated less than 3.0 on the Transit Economic Requirements Model (TERM) Scale
 - Infrastructure: The percentage of track segments (by mode) that have performance restrictions. Track segments are measured to the nearest 0.01 of a mile

- Safety
 - Number of fatalities
 - Fatalities per 100 million vehicle miles traveled
 - Number of serious injuries
 - Serious injuries per 100 million vehicle miles traveled
 - Number of non-motorized fatalities and non-motorized serious injuries

- Infrastructure
 - Percentage of pavements of the Interstate System in *Good* condition
 - Percentage of pavements of the Interstate System in *Poor* condition
 - Percentage of pavements of the non-Interstate NHS in *Good* condition
 - Percentage of pavements of the non-Interstate NHS in *Poor* condition
 - Percentage of NHS bridges classified as in *Good* condition
 - Percentage of NHS bridges classified as in *Poor* condition

- System Performance on NHS
 - Interstate Travel Time Reliability Measure: The percent of person-miles traveled on the Interstate that are reliable
 - Non-Interstate Travel Time Reliability Measure: The percent of person-miles traveled on the non-Interstate NHS that are reliable

- Freight Movement
 - Freight Reliability Measure: Truck Travel Time Reliability (TTTR) Index

- CMAQ - Congestion Reduction
 - Peak Hour Excessive Delay (PHED) Measure: Annual Hours of Peak Hour Excessive Delay (PHED) Per Capita
 - Non-Single Occupancy Vehicle Travel (SOV) Measure: Percent of Non-Single Occupancy Vehicle (SOV) Travel
 - Emissions Measure: Total Emission Reductions
 - Percent Change in Tailpipe CO₂ Emissions on the NHS Compared to the Calendar Year 2017 Level

These performance measures have been established within a series of FHWA and FTA rulemaking regulations. The Transit and Safety performance measure targets have been established based on the final rules for those measures and included in the STIP.

Other separate final rules and the deadlines to establish the Infrastructure, System Performance on NHS, Freight Movement, and CMAQ - Congestion Reduction performance measure targets extended into calendar year 2018. These additional performance measure targets have been established and will be included in future STIP Amendments as required by the Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning; Final Rule.

A description of the Transit and Safety performance measure targets and methodologies are included in the following discussions.

2019 Transit Performance Target of Capital Assets

In accordance with 49 CFR Parts 625 and 630 for Transit Asset Management (TAM), the Wisconsin Department of Transportation (WisDOT), is the TAM sponsor for all Section 5311 Formula Grants for Rural Areas, Section 5310 Enhanced Mobility for Seniors and Individuals with Disabilities, and some Section 5307 Formula Grants for Urbanized Areas subrecipients.

Methodology

WisDOT provided an opt-in opportunity for all Section 5311 Formula Grants for Rural Areas, Section 5310 Enhanced Mobility for Seniors and Individuals with Disabilities, and some Section 5307 Formula Grants for Urbanized Areas sub recipients to be included in the WisDOT TAM Plan. WisDOT worked with subrecipients to update the inventory information of federally funded vehicles, equipment, and facilities in its BlackCat web-based grants management system.

In early 2018, WisDOT staff presented the TAM targets and a draft TAM Plan at a WisDOT Planning Section meeting with representatives from the state Metropolitan Planning Organizations (MPOs) and Regional Planning Commissions (RPCs). WisDOT staff fielded questions from attendees and provided them with a PowerPoint presentation about the federal TAM initiative as well as a copy of the draft plan.

Vehicles

WisDOT evaluated the inventory of its sub-recipient vehicle capital items and used FTA's Useful Life Age Benchmark (ULB) set in FTA 5010.1D, page IV-7 to determine if the vehicles were beyond their useful life. WisDOT and its sub-recipients have set the following TAM performance targets:

Rolling Stock – Acceptable percentage of revenue vehicle fleet that is past its useful life

Performance Measure	2018 Performance (%)	2019 Target (%)
AO – Automobile	100.00	20.00
BU – Bus	19.23	58.00
CU – Cutaway	10.31	54.00
MV – Minivan	33.33	47.00

Equipment – Acceptable percentage of non-revenue vehicle fleet that is past its useful life

Performance Measure	2018 Performance (%)	2019 Target (%)
AO – Automobile	n/a	20.00

Facility Targets

WisDOT evaluated the condition of the facilities in its sponsored TAM plan using the remaining useful life standards outlined in FTA 5010.1D, page IV-18, 2(f) as a guide. Each facility has been given the useful life of 40 years.

Facility – Acceptable percentage of facilities that are past their useful life

Performance Measure	2018 Performance (%)	2019 Target (%)
Administrative/Maintenance Facilities	10.00	10.00

Most transit facilities in WisDOT's sponsored TAM Plan are relatively new and in excellent condition. None of the facilities are beyond their useful life of 40 years or reached below adequate condition. WisDOT and its sub-recipients set the TAM performance target to only allow 10 percent of the facilities to go beyond their useful life.

Next Steps for the TAM and Transit Targets

In 2019, approximately \$6,800,000 of funding is dedicated to replacing priority vehicles within the TAM Plan as transit providers continue to operate services with aging fleets. At least 56 percent of the vehicles reported in the WisDOT TAM Plan will be beyond their useful life in 2019 and 25 percent of the fleet reported in the state's plan have been in use for at least a decade. There will be a growing financial gap from year to year associated with the number of vehicles needed to be replaced in order to meet the established TAM targets and the funding levels for vehicles that are currently available.

WisDOT will assist transit providers on how to use the useful life benchmarks established in the TAP Plan to prioritize their vehicles requests at the time of grant application, and are working to share best practices on vehicle maintenance across agencies and organizations.

WisDOT will also continue to work closely with its sub-recipients and FTA on any additional asset management requirements or changes, and update the TAM targets and plan as necessary.

2018 Highway Safety Improvement Program Performance Measures

The Highway Safety Improvement Program (HSIP) is a core Federal-aid program with the purpose of achieving a significant reduction in fatalities and serious injuries on all public roads. As per 23 U.S.C. 148(h) and 23 CFR 924.15, states are required to report annually on the progress being made to advance HSIP implementation and evaluation efforts.

HSIP Project Prioritization

Wisconsin evaluates potential HSIP projects by comparing the estimated crash reduction benefits expected from the project with the cost of that project. Crash reduction benefits are estimated by multiplying up to two crash modification factors (CMF) by five years of observed crash data. CMFs and target crashes are identified by the safety analyst and a spreadsheet tool is used to calculate the estimated crash reduction benefits. The spreadsheet tool incorporates the WisDOT CMF Table and logic described in our statewide policy described at the following link:

<https://wisconsin.gov/dtsdManuals/traffic-ops/manuals-and-standards/teops/12-03.pdf>

A key component in the development of the HSIP is the Project Evaluation Factor (PEF). The PEF is a measurement that is used to evaluate and compare proposed projects. It provides a comparison of the estimated crash reduction potential of a proposed improvement with the overall cost of the project. Although it has similarities to a benefit/cost analysis, it does not include all the elements of a traditional benefit/cost analysis tool for ranking the relative merits of a group of projects, and should not be compared to a benefit/cost analysis.

Internal and External Coordination

The HSIP Program is managed by WisDOT's Division of Transportation Investment Management (DTIM) and the Bureau of State of Highway Programs (BSHP). DTIM/BSHP makes all final application approvals or denials and related project change or cost increase requests. However, DTIM/BSHP coordinates its efforts with several internal partners that both directly and indirectly influence the decision-making process. Below is a summary of these partners and their role in the program:

- Traffic Safety Council (TSC): The TSC is comprised of representatives from Division of Transportation System Development (DTSD), DTIM, DMV, Division of State Patrol (DSP), and various Executive Offices within WisDOT. Among this group's responsibilities is developing and maintaining the Wisconsin Strategic Highway Safety Plan (SHSP), which helps guide the safety efforts of the HSIP Program.

- Safety Engineer Executive Group (SEEG): This is a high-level group comprised of representatives from DTSD and DTIM management. Its focus is to identify safety trends and issues to develop and offer direction and initiatives to both the HSIP Program and the TSC on important safety engineering issues throughout the state.

- Traffic Safety Engineering Workgroup (TSEWG): TSEWG is comprised of the State HSIP Coordinator, State Traffic Safety Engineer, and the Regional Traffic Safety Engineers. In some cases, the Regional HSIP Coordinators also participate. This group identifies and evaluates

potential safety initiatives both within and outside of the HSIP Program, provides peer support, and reviews proposed HSIP projects. After a group evaluation, a recommendation to approve or not approve is forwarded to the State HSIP Coordinator for final review

- State Project Oversight Engineers: The State Project Oversight Engineers are a critical component of the joint process with the TSEWG for application review and approval. The DTSD State Project Oversight Engineers, Regional Traffic Safety Engineers, the State Traffic Safety Engineer, and the State HSIP Coordinator provide a consensus approval or disapproval of HSIP funding after a comprehensive in-person peer review. Each Region has one Project Oversight Engineer. State Project Oversight Engineers only review applications originating from the Region in which they are assigned. This consensus approval or disapproval is advisory to DTIM/BSHP.

The HSIP is fully coordinated and integrated with the work of other organizations, associations, and stakeholders (e.g., law enforcement, academia, local governments, and MPOs) that play a role in reducing fatalities and serious injuries. One of the basic foundations of the HSIP is the direct linkage between the data-driven priorities established in the Strategic Highway Safety Plan (SHSP) and the identification, development, and implementation of HSIP projects. Local and regional governments alike both contribute towards achieving the goals and objectives of the SHSP and help guide program decisions and project selections. More specifically, where there are a high percentage of crashes that occur off the state system, WisDOT works with local jurisdictions to help them develop and implement HSIP projects that address priority safety issues on locally-owned roadways. This is either done by locals doing work as local force accounts or they are let by WisDOT. Stakeholders will continue to contribute to and support the goals established in the SHSP. This in turn encourages safety projects that meet established safety performance targets.

Coordination with MPOs and RPCs on safety targets were part of multiple quarterly Directors meetings over the past couple of years. Starting with the Notice of Proposed Rulemaking, Final Rule publication and establishment of WisDOT and MPO safety targets. WisDOT continues coordinating with individual MPOs as they establish their planning area safety targets.

Calendar Year 2019 Targets

Safety Targets are calculated as five-year rolling averages for each performance measure.

Number of Fatalities 555.7

The 2% reduction in traffic fatalities is supported by the stated goals and actions steps of the SHSP.

Number of Serious Injuries 2,967.6

The 5% reduction in number of serious injuries is supported by the stated goals and action steps of the SHSP.

Fatality Rate 0.915 per 100 Million Vehicle Miles Traveled

The 2% reduction in the rate of fatalities is supported by the stated goals and action steps of the SHSP.

Serious Injury Rate 4.785 per 100 Million Vehicle Miles Traveled

The 5% reduction in rate of serious injuries is supported by the stated goals and action steps of the SHSP.

Total Number of Non-Motorized 342.0 Fatalities and Serious Injuries

The 5% reduction in non-motorized fatalities and serious injuries is supported by the stated goals and action steps of the SHSP.

HSIP projects are included in the STIP. In addition, safety is a major consideration in the scoping, prioritization, selection, and development of all WisDOT state and local projects. The efforts made toward addressing safety within the HSIP and all projects will continue to impact how progress is made toward achieving Highway Safety Improvement Program performance measure targets.

Future Performance Measure Actions

As WisDOT establishes additional performance measure targets, a description of the anticipated effect of the STIP toward achieving those performance measures targets will be included within future STIP amendments and/or updates.

Summary of Public Comments on the Draft STIP

WisDOT received two comments on the Draft 2019 – 2022 STIP. Summary of the comments and WisDOT’s responses are included below:

- Lisa Conard from the Green Bay MPO commented on USH 41 project number 1150-66-00. They were inquiring about the schedule date for the project. The MPO’s information showed the project scheduled later than the 2019-2022 STIP period. If the project was to be included in the STIP; the MPO would need to include the project in their 2019-2022 TIP.

Northeast Region staff indicated this was only included as a placeholder project, which would be removed before the final STIP project listing was run on January 2, 2019. A reply to Ms. Conard was sent indicating the project would be removed in the final STIP and inclusion of the project in the MPO’s current TIP was not necessary.

- The Federal Transit Administration (FTA) Region V Transportation Programs Specialist Evan Gross provided comments to clarify the 2019 transit performance targets for capital assets. The document was updated to include a separate target for non-revenue vehicles and to specify how a facility’s condition is evaluated. Further details were also included on how WisDOT plans to try and meet the asset management targets set in 2019 via their capital vehicle awards.

STIP Amendments

The STIP is approved by WisDOT, FHWA, and FTA. Throughout the year, it may be necessary to amend the 2019 – 2022 STIP to incorporate projects not included in the original project listing. The following are changes that may necessitate a STIP amendment: significant change in the scope and/or cost of a project, changing the letting date of a project beyond the four year STIP period, adding/advancing a project to the STIP, etc.

All such amendments will be added to the STIP webpage for record keeping purposes:
<https://wisconsindot.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>.
