

# I-41 Resurfacing Project US-151 to South County Line

**Jill Schwab**  
Civil Engineer

Local Officials Meeting  
Green Bay, Wisconsin via Skype

January 27, 2021

# Overview

- Introductions
- Explain need for the project
- Explain proposed project actions
- Discuss anticipated traffic impacts
- Discuss project timeline and next steps
- Open discussion

# Project Summary

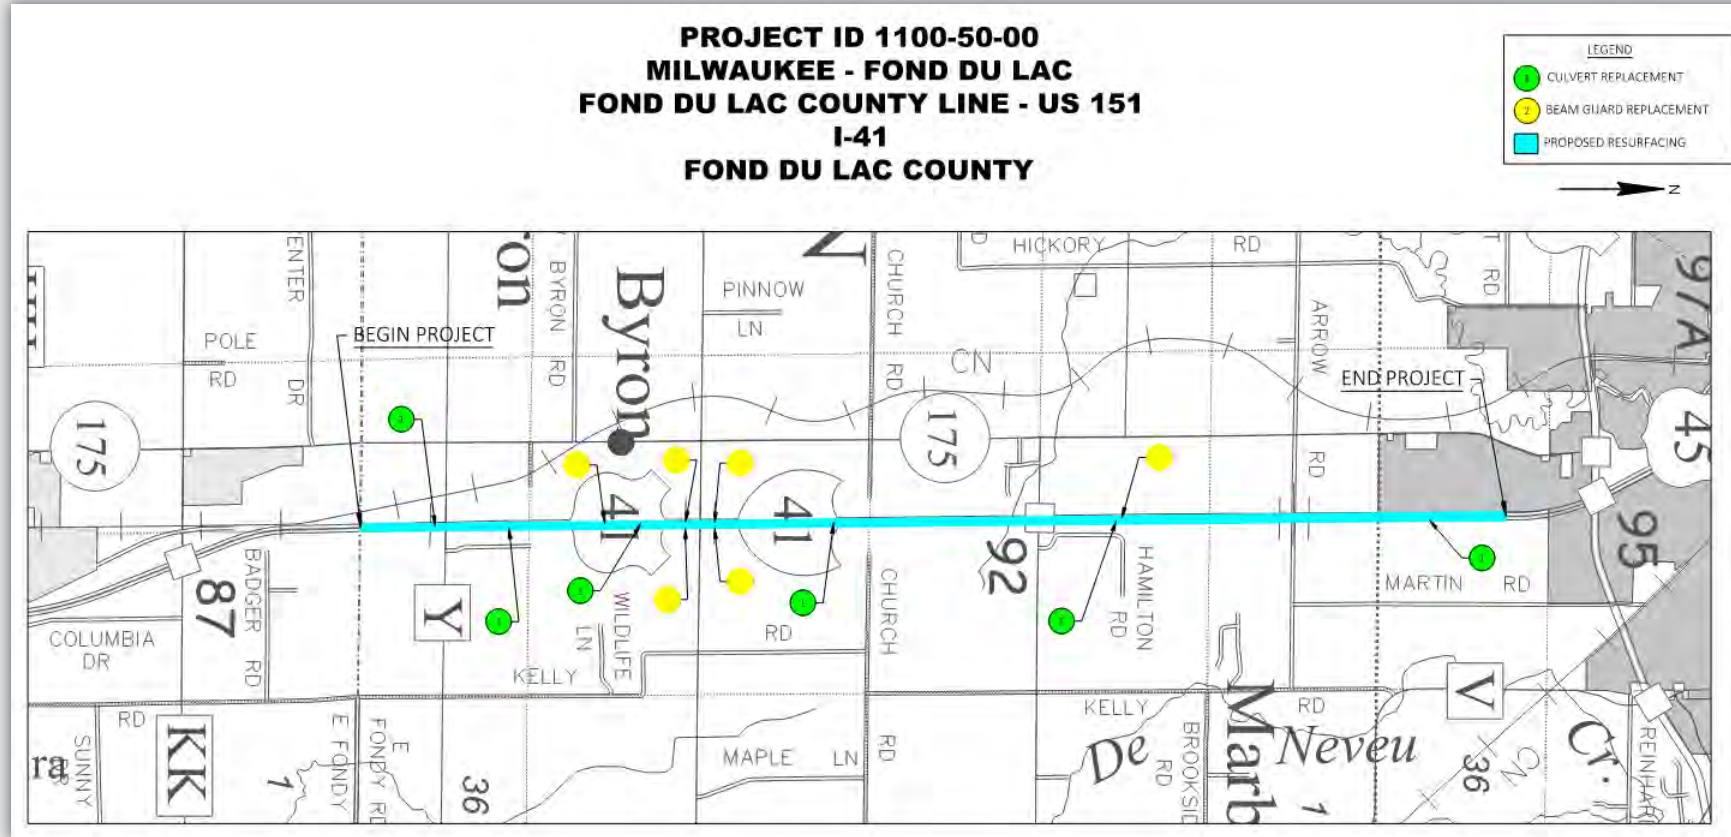

- WisDOT project ID:
  - Design: 1100-50-00
  - Construction: 1100-50-71
- Fond du Lac County
- Located on I-41 between the south county line and US-151
- Project length: Approximately 6.75 mi

# Project Location

# Project Map

# Purpose and Need

- The 2006 pavement is deteriorating
- The cable guard posts installed in 2006 are pulling out of the ground, reducing effectiveness of the barrier system
- Culverts at 7 locations have joint separation causing drainage issues and side slope failure
- Overpass structures have minor surface deterioration

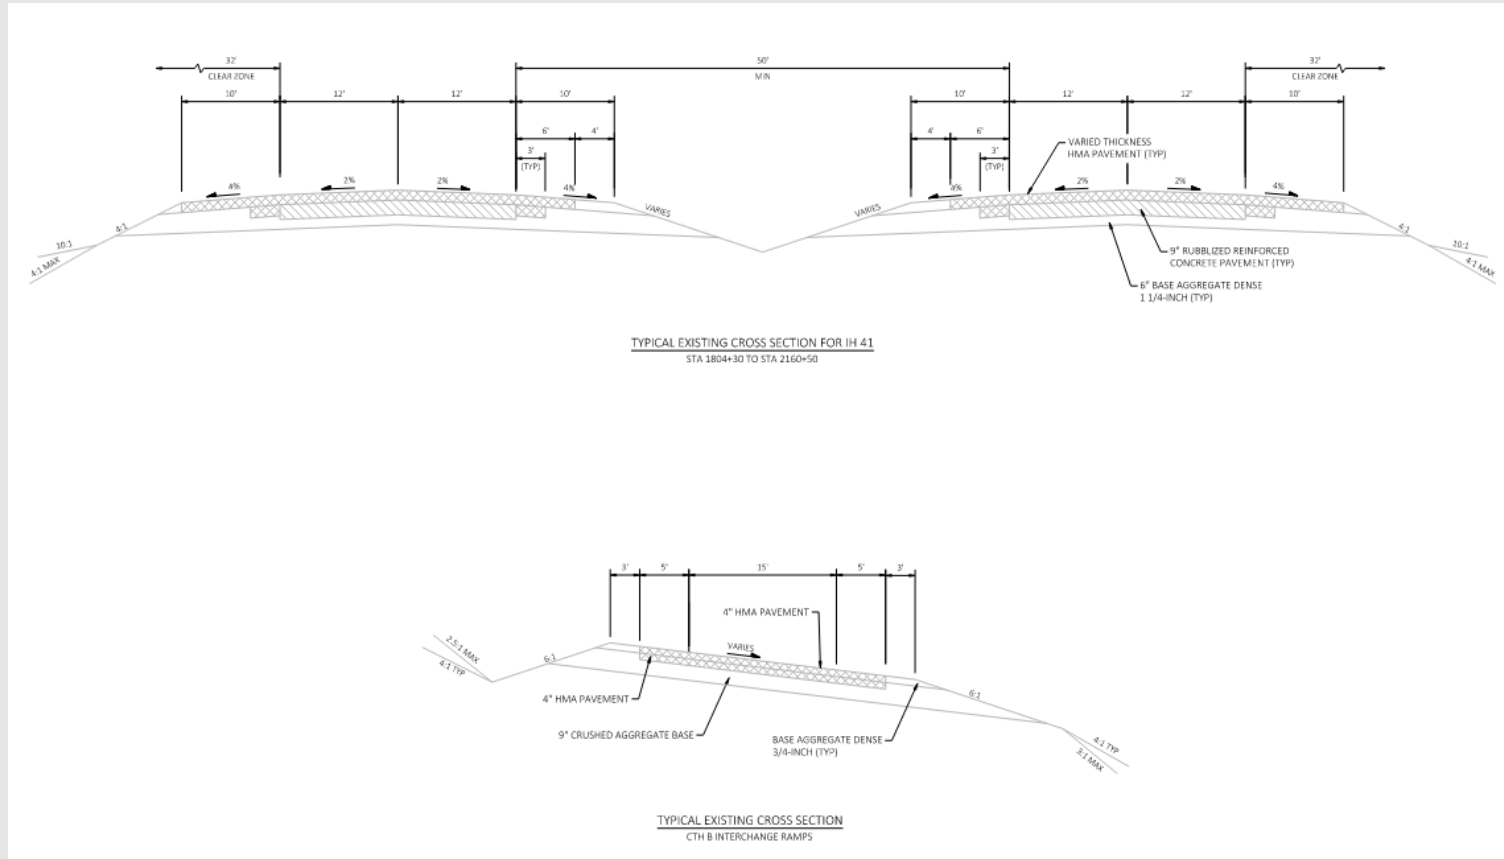

# Proposed Improvements

- Mill and overlay 2 inches of asphalt from the northbound and southbound lanes and the CTY B interchange ramps
- Grade median and install new cable guard
- Re-lay culvert pipes with joint separation
- Spot surface repair of overpass structures
- Replace beam guard
- Flatten deficient side slopes

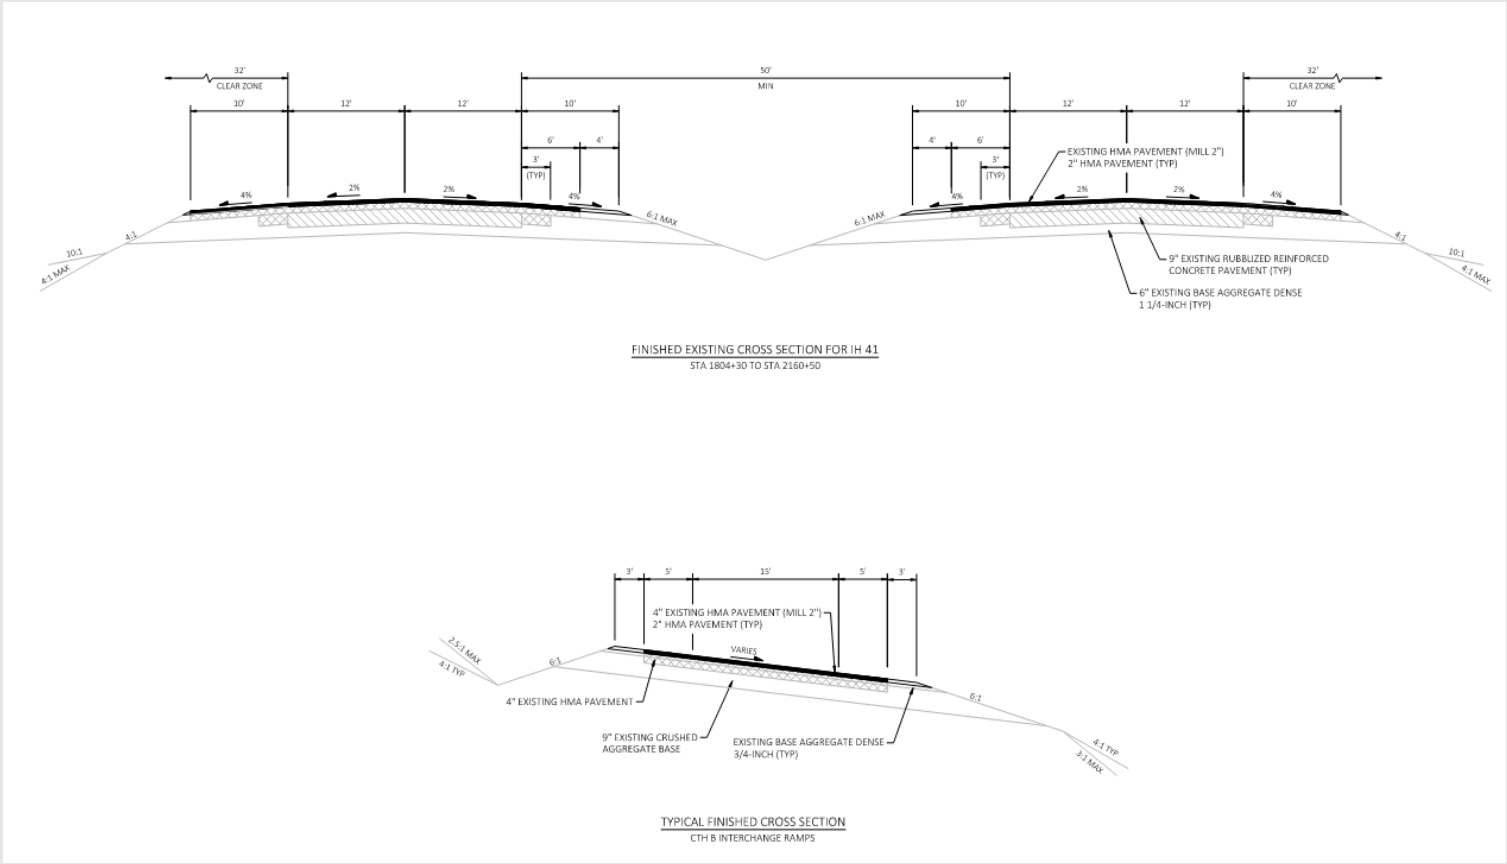

# Existing Typical Cross Sections

# Proposed Typical Cross Sections

# Anticipated Traffic Impacts

- Project is anticipated to be mostly be night work or during off-peak hours
- Daytime lane closures may be needed for median grading, cable guard installation, and beam guard installation
- Some short-term daytime full closures may be needed for culvert work

# Upcoming Milestones

- Environmental document: late winter / early spring 2021
- Design study report: spring 2021
- Utility coordination: spring 2021
- Design completion: February 2022
- Letting: December 2022
- Construction scheduled for spring-summer 2023
