

Public Involvement Meeting

Bridge Rehabilitation Project

WIS 13 over US 2/53
Douglas County

Spring 2023

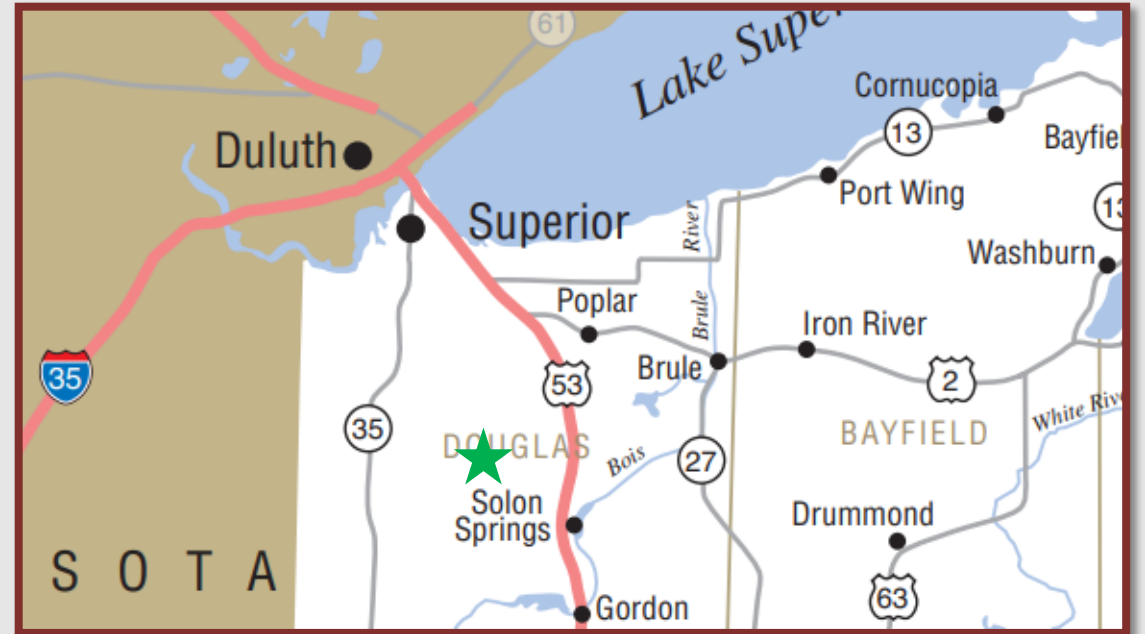

Meeting Agenda

- Project Limits and Definition
- Project Purpose and Need
- Proposed Improvements
- Construction Impacts
- Project Schedule
- Contact Information
- Public Comment

Project Limits and Definition

- Bridge rehabilitation project
 - Project is located on the bridge carrying WIS 13 over US 2/53.

Project Purpose and Need

- Proposed improvements on the bridge will address:
 - Deteriorated structure elements
 - Deteriorated road approaches
 - Obsolete guardrail and surface drains

Proposed Improvements

- Proposed improvements include:
 - Adding a polymer overlay to deck
 - Replacing bridge joints
 - Upgrading guardrail
 - Replacing concrete approach slabs at each end of the bridge

Construction Impacts

- WIS 13/County Z:
 - One lane to remain open to traffic during structure and approach work
 - Traffic controlled by temporary signals
- US 2/53
 - Single-lane closures controlled by flagging during girder painting

Project Schedule

- Final plan completion
 - February 2024
- Construction
 - Scheduled for 2026
 - Could happen as early as 2025
 - Work anticipated to take approximately eight weeks to complete

Contact Information
