

I-94 East-West Freeway Corridor Study

Washington Street - Design Challenges and Constraints

Interaction of local street traffic, parking, truck shipments, rail crossings, stormwater detention and oversize / overweight loads

Steep Grade Differences

At-Grade Rail Crossings

Oversize / Overweight Shipment Turning Thru Washington Street

Oversize / Overweight Shipment Crossing Washington Street

Wetlands / Drainage Swale Adjacent to Hank Aaron State Trail

Active Railroad Spur Switches

Active Railroad Spur Switch

Large Shipments by Rail, Crossing Washington Street

Fill Material Berm Adjacent to WE Energies Substation

Stormwater Detention Pond

Oversize / Overweight Shipment Navigating Intersection of Washington Street and 70th Street
