

Public Involvement Meeting Handout

**WIS 19
C Sun Prairie, Windsor/Bristol Streets
Dane County**

Project ID: 3050-05-02

**June 29, 2022
5 to 6:30 p.m.
Sun Prairie City Hall**

Purpose of the meeting

The purpose of this meeting is to gather public input on the identified project needs and proposed improvements. The meeting will be an open house format with a brief presentation at 5:30 pm.

Project information

The proposed project on WIS 19 is approximately 0.4 miles from North Street to Main Street within the city of Sun Prairie, Dane County. WIS 19 is an undivided, 2-lane urban principal arterial road, with an annual average daily traffic of 9,280 vehicles per day.

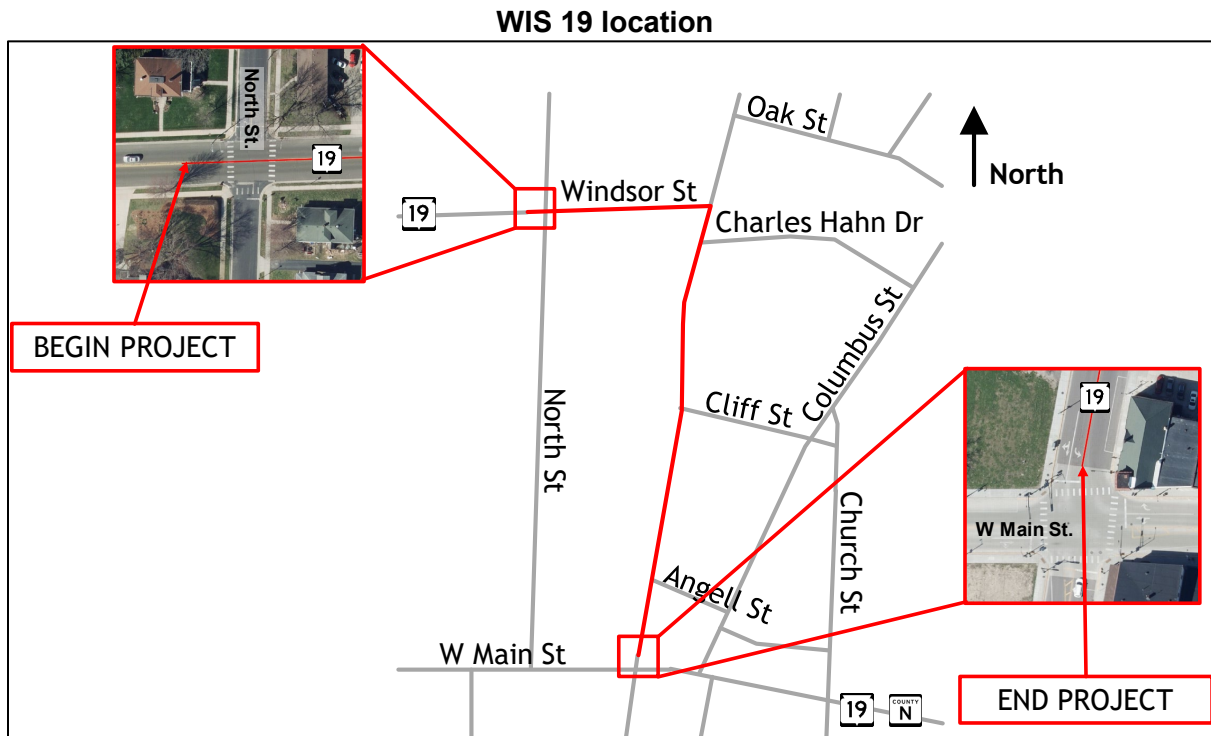

The purpose of the project is to deter future pavement deterioration through the mitigation of a pavement preservation improvement. The existing pavement has longitudinal and transverse cracking and will continue to deteriorate without improvement.

The following needs have been identified on this section of WIS 19:

- Pavement deterioration
- Americans with Disabilities Act (ADA) compliance
- Pork Chop Island Condition

The proposed improvements include the following:

- Highway resurfacing (mill and overlay asphaltic pavement)
- Replacement of curb ramps to meet ADA requirements
- Replacement of pork chop island at intersection of Windsor Street and North Bristol Street

Proposed traffic impacts

Construction is currently scheduled to begin in Spring 2028. If funding is available, the project could be constructed as early as 2025.

During construction on WIS 19, the contractor will utilize flagging operations with rolling single lane closures reducing traffic to one lane. Driveway access to properties on the corridor will be maintained to the best extent possible. Limited driveway closures could be needed and are anticipated to be infrequent. Any driveway closure will be communicated in advance with the property owners. During the flagging operation work, the site will be fully open to the traffic at the end of the day.

Sidewalks with curb ramp construction will be closed during construction activity. A pedestrian detour will be provided to maintain access. All sidewalks will be open upon completion of curb ramp construction.

Real estate

Additional right of way will be required for this project. Permanent acquisition and temporary easements will be required for curb ramp construction. Information is anticipated to be sent to affected property owners discussing the temporary easements and permanent acquisition in winter 2022.

Project update/next steps

- | | |
|-------------------------------------|---------------------------|
| • Real Estate Acquisition | Winter 2022 – Spring 2024 |
| • Possible Advanceable Construction | Spring 2025 |
| • Scheduled Construction | Spring 2028 |

Public input/comments

We encourage you to talk to the project representatives and ask them questions. Attached to this handout is a sheet for your written comments and input regarding the proposed project. Please mail any written comments about the project before July 29, 2022 or leave them in the comment box tonight. You can also email your comments to the contacts listed below.

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.
