

Project ID: 3601-00-04/74  
Fort Atkinson – Lake Mills  
East Blackhawk Drive to US 18  
WIS 89  
Jefferson County

### **PROJECT INFORMATION**

WisDOT is looking to improve 4.526 miles of WIS 89 from East Blackhawk Drive to US 18. (Attached is a project location map.) The existing asphaltic pavement surface is aged and deteriorating. Signs of this can be seen by the alligator, longitudinal and transverse cracking.

#### **Proposed improvements include:**

- Extending the service life of the asphaltic pavement
  - Mill 1.75” to 3.5 “of existing asphaltic pavement.
  - Overlay with 3.5” of Hot Mix Asphalt (HMA) pavement
- New pavement marking
- Replace two drainage pipes crossing under WIS 89
- Replace end segments of beam guard at bridge crossing over WIS 26

### **PROPOSED TRAFFIC IMPACTS**

Construction is currently scheduled to begin in 2025, with the potential advancement to the spring of 2024.

Traffic control will be handled as such:

- Local Traffic – During milling and paving operations, flagging operations will be implemented
- Regional Traffic – A detour route will be implemented which will direct traffic onto US 12, WIS 26, and US 18
- Access to all properties within the project limits will be maintained during construction

If you have special access needs during construction, please let us know so these needs can be assessed and addressed.

### **REAL ESTATE**

The need for real estate acquisition is currently being assessed in this early design phase.

### **ANTICIPATED SCHEDULE**

Preliminary Design Complete:	February 2021
Environmental Review Approved:	March 2021
Final Design Complete:	June 2023
Construction:	Spring/Summer 2025*

\* Potential advancement to Spring 2024

### **PUBLIC INPUT/COMMENTS**

We encourage you to talk to the project representatives and ask them questions. Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.
