

How It's Done

Rhinelander US 8/WIS 47

- Construction of a roundabout at the intersection of US 8 and WIS 47 in Rhinelander replaced a signalized intersection which had a history of crashes.
- A significant amount of public outreach was conducted during design and construction.
- Coordinated with the city for local detours and to schedule alongside adjacent city streets work.
- Coordinated with Oneida County to communicate detours to thousands of visitors to the annual Hodag Country Fest.
- Outreach included public presentation on how to drive safely in a roundabout.
- Also published roundabout safety materials on the project web page.

Key takeaways: Engaging in pre-construction outreach processes helps to keep everyone in the know.
