

# WisDOT - Improvement Program NW Region 2020 - 2025

## Legend

### Improvement Concept Definitions

**Cold In-place Recycling** -  
 Bridge: New, Replace, Remove represents several improvement types:  
 1) New bridge creating a new grade separation or structure  
 2) A bridge replacing an existing crossing but not necessarily in the same place  
 3) A bridge replacing an existing crossing to increase system capacity  
 4) Bridge elimination  
 Bridge Rehabilitation represents several improvement types:  
 1) Bridge rehabilitation. Usually bridge deck overlay or deck replacement  
 2) Minor overlay on bridge decks, bridge painting, or other maintenance  
**Miscellaneous** - Not a roadway or bridge project. Usually a pedestrian or safety focus  
**Reconstruction** - Replace most of the roadway and upgrade to current design standards  
**Recondition** - Change intersection or roadway to improve safety and/or operation  
**Resurfacing** - Add pavement material to existing pavement, includes safety improvements  
**Pavement Replacement** - Replace pavement, and usually no geometric changes  
**Preservation and Restoration** - Maintenance to address problem areas or routine preservation including State Highway Rehabilitation Maintenance (SHRM)
