ADDENDUM NO. 01

1229-04-70

July 6, 2021

Special Provisions

6. Holiday and Special Event Work Restrictions.

Remove the following restriction:

- During Summerfest, scheduled for September 2, 2021 through September 4, 2021 and for September 9, 2021 through September 11, 2021 and for September 16, 2021 through September 18, 2021, lane closures cannot begin until one hour after the event closes each night;

97. DELETED

102. Field Office Fixed, Item SPV.0135.0100.

A Description

This special provision describes furnishing, equipping, and maintaining field office facilities.

B Materials

Replace standard spec 642 with the following:

Obtain engineer approval before providing an existing office building, or an existing building converted to office-type use. Ensure that this permanent/fixed facility meets all applicable health, fire, and building codes and standards and is less than one mile from the project limits.

Provide; maintain in clean good working condition; and stock lavatory with sanitary supplies, including a sufficient supply of soap; hand sanitizer; toilet paper; and paper towels. The on-site sanitary facilities must meet Federal, State, and local health department requirements at all times.

Equip these facilities with suitable natural and artificial lighting. Also provide adequate heating and air conditioning equipment and fuel necessary to maintain a temperature range from 68 F to 80 F during the hours occupied.

Equip:

- Doors and windows with locks.
- Exterior doors with dead bolt locks or other secondary locking device.
- Windows with exterior screens to allow adequate ventilation.

Supply a first aid kit in each field office provided under the contract. Ensure the kits are readily accessible to project personnel. Check and replenish the contents of each kit at least once a week. Ensure that each kit contains, at a minimum, a supply of nitrile examination gloves, CPR masks, adhesive tape, pressure and cling bandages, antiseptic wipes, bite/sting swabs, cold packs, and safety goggles.

Equip with a 6-pound or larger fire extinguisher conforming to class A, B, and C of the NFPA Code.

Minimum interior useable floor space shall be 2000 square feet, including shared spaces, such as plan review areas, conference rooms, meeting areas, hallways, and restrooms.

Obtain engineer's approval of a suitably sized, open meeting area, including tables and folding chairs to accommodate regularly scheduled meetings of 30 people.

Provide 8 workstations, including a lockable desk, shelf, and fireproof 4-drawer file cabinet. Provide 3 private rooms, equipped, in addition to the above, with a four-shelf bookcase, a large lockable metal storage cabinet, and a 48" x 36" whiteboard with dry-erase markers. These rooms shall have an interior door with a lockset.

Provide one ergonomically correct office chair in working condition, with, at a minimum, the following features, for each workstation:

- Five-legged base with casters.
- High backrest.
- Seat adjustable from 15 inches to 22 inches from the floor with a seamless waterfall, rounded front edge.

Provide the field office with high speed broad band internet service for a minimum of 10 high speed internet connections at speeds of 20-50 Mbps upload and download speeds. Provide a high speed internet connection using a minimum of "small office or home networking" package that includes high speed wireless internet. The package shall include a Dynamic IP Address (DHCP), a wireless router, a Digital Subscriber Loop (DSL) or Cable Modem Router. The package shall accommodate IPSec based VPN products.

Provide and install into the field office 2 two-line programmable touch-tone telephones and telephone exchanges with local and long distance service. At least one will be a cordless type operating at least 2.4 GHz. The voice exchanges are to be configured so that the incoming calls for any voice exchange utilize an open exchange. Furnish a voice mail answering service. The telephones and the communication services are for the sole use of the department staff.

Provide one new, high-capacity color printer/photocopier/scanner capable of printing and copying up to 11" x 17" paper, with the ability to perform duplexing, sorting, stapling, and multiple sheet auto feeding, with a built-in scanner with the capability to scan black and white and color up to 11" x 17" at a minimum of 600 dpi, and with a network connection, as approved by the engineer.

Provide and maintain an adequate supply of bottled drinking water. Provide one 18 cubic foot minimum size refrigerator with freezer and microwave. Provide a microwave oven with a minimum 1.1 cu foot capacity, a minimum of 1000 watts and a removable glass turntable.

Maintain the field office equipment and provide supplies for the photocopiers as requested by the engineer.

Provide for the professional cleaning of the field office during regular business hours twice monthly.

Provide clearly marked recycling and waste receptacles within the field office, and separate recycling and waste dumpsters near the field office. Cover outdoor containers to keep out rain, snow, and wind-driven debris. Provide regularly scheduled recycling and waste pick-up.

Include an adjacent, no-fee, lighted parking lot large enough to accommodate the needs of the field offices at peak usage, as approved by the engineer. Maintain the parking lot and egress, including snow removal.

C Construction

Do not combine field offices, or combine them with, or attach them to, any buildings used by the contractor, unless the engineer allows in writing. The contractor may furnish, if the contract allows, the field offices jointly in cooperation with other contractors on designated projects.

Do not begin construction operations requiring the use of the field offices by the department until the required field offices are approved by the engineer, furnished, fully equipped, and made ready for use as the engineer directs.

The field office shall remain available for department until the engineer approves its closure. These field facilities are for the sole use of the department and upon contract completion remain the contractor's property.

D Measurement

The department will measure Field Office Fixed bid item by the month, or partial month where applicable, acceptably completed.

E Payment

The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0135.0100	Field Office Fixed	MON

Payment is full compensation for providing, equipping, securing, cleaning and maintaining the facility and associated parking lot; for telecommunications equipment, installation, and service fees; and for providing all incidentals, including bottled water, refrigerator/freezers, microwaves, utilities, fuel, safety, ventilation, toilet facilities, and office supplies as required, either independently or jointly, for the time specified in Section C.

Schedule of Items

Attached, dated July 6, 2021, are the revised Schedule of Items Page 12.

Plan Sheets

The following 8½ x 11-inch sheets are attached and made part of the plans for this proposal:
Revised: 326.
